

# One API for all Platforms

- ✓ iOS, Android, Web and Electron
- ✓ Provides polyfills as fallbacks
- ✓ ngAdd coming soon!

```
const { Filesystem } = Plugins;

fileWrite() {
  try {
    Filesystem.writeFile({
      path: 'secrets/text.txt',
      data: "This is a test",
      directory: FilesystemDirectory.Documents,
      encoding: FilesystemEncoding.UTF8
    })
  } catch(e) {
    console.error('Unable to write file', e);
  }
}
```

The bottom line:

# Focus on what ionic does best.

- ✓ Angular is a one-of-a-kind platform
- ✓ Ionic leverages the best of Angular
- ✓ We focus on what makes Ionic great
