**The benefits:**

Moving to the Angular CLI.

✓ Less duplicated effort on tools

✓ Easier to adopt new tools (Bazel)

✓ Easier for the community: one setup

@ionic/angular-toolkit

Opinionated Tooling For Ionic

✓ Opinionated schematics for devs

✓ Lazy load routes by default

✓ ngAdd for even easier adoption

```
$ ionic g page detail
> ng generate page detail
CREATE src/app/detail/detail.module.ts
CREATE src/app/detail/detail.page.scss
CREATE src/app/detail/detail.page.html
CREATE src/app/detail/detail.page.spec.ts
CREATE src/app/detail/detail.page.ts
UPDATE src/app/app-routing.module.ts
[OK] Generated page!
```
